

# Rental auto re-plan.

## Rental auto re-plan.

rentals can be automatically re-planned based on the Book in date and the expected completion date of the job. To do this, you need to set up, under the "System" (1), "Options" (2), the configuration RENTAL\_AUTO\_REPLAN (3) (press Ctrl + F, and type RENTAL\_AUTO\_REPLAN). This can be done in different ways (4), you will find the different settings under the screenshot.

The screenshot shows the PlanManager Configuration Editor interface. The top navigation bar includes 'System' (1) and 'Options' (2). The configuration table lists various settings, with 'RENTAL\_AUTO\_REPLAN' (3) highlighted. A dropdown menu (4) is open, showing options like 'POSTPONE', 'ALWAYS', 'NEVER', etc.

Name	Location	Category	Value
AUTOMATIC_RENTAL_PRINTOUTS		rental	ON START
