

Usual Driver.

Usual driver

When you enter a usual driver to a rental car, that person will receive a SMS as a reminder when the replacement car is reserved or coming back from a reservation.

The screenshot shows a form for setting a usual driver. On the left, there is a link "Show more details." with a green arrow pointing to it. The form fields are:

Greencard nr	<input type="text"/>
Excess	£ <input type="text"/>
UsualDriver	JM Smets <input type="button" value="v"/>
Insurance	BA <input type="button" value="v"/>
Greencard duedate	28-02-2017 <input type="button" value="calendar"/>
Coc duedate	<input type="text"/> <input type="button" value="calendar"/>

On the right, there is a list of options with a green arrow pointing to the 'UsualDriver' dropdown:

- Mileage
- Checkup Interval
- Months
- Checkup Interval
- Winter Tires
- Summer Tires
- All Season Tires
- Damage

To set this, go to System - Options and search:

'SEND_USUAL_DRIVER_START_REMINDER_SMS (at the start of a reservation) or
SEND_USUAL_DRIVER_STOP_REMINDER_SMS (at the end of a reservation).

If this configuration is set to "always" , the usual driver will automatically get an SMS .

You will be sent a standard SMS. You can adapt this text in the screen
Administration - Comm. Templates.

Before, an email was also sent to the usual driver at the start / cancellation /
modification of the reservation. You can see this email in the communication screen
in the block of the reservation. You also can change this text in the screen
Administration - Comm. Templates.
