

Throughput time report.

Throughput time report.

Shows how many claims were completed per week/per month.

The screenshot shows a web interface for a 'Claim Completion' report. At the top, there is a navigation bar with tabs: Dashboard, Financial, Operational, Management, Other, and Scheduled. Below this, the main header includes 'Claim Completion' with a print icon, a 'Period' selector (set to 'Weekly'), and a 'Weekly | Monthly' toggle. A 'Period Selector' sidebar on the left contains a 'Location' dropdown, 'Job End' section with 'From' (01-07-2017) and 'Until' (30-08-2017) date pickers, and a 'Filter' button. The main data table has columns: Start of Week, End of Week, Claims Completed, Fastest, Slowest, and Avg Duration. A data row shows: 07-08-2017, 13-08-2017, 2, 0d 6h 24m, 0d 6h 24m, 0d 6h 24m. Annotations include a green box around the 'Period' selector and 'Weekly | Monthly' toggle, a green box around the 'Period Selector' sidebar, a green box around the 'Fastest', 'Slowest', and 'Avg Duration' columns, a green box around the 'Filter' button, and a callout box pointing to the duration values with the text 'Fastest, slowest & average throughput time'.

Start of Week	End of Week	Claims Completed	Fastest	Slowest	Avg Duration
07-08-2017	13-08-2017	2	0d 6h 24m	0d 6h 24m	0d 6h 24m
