

Scanner 2

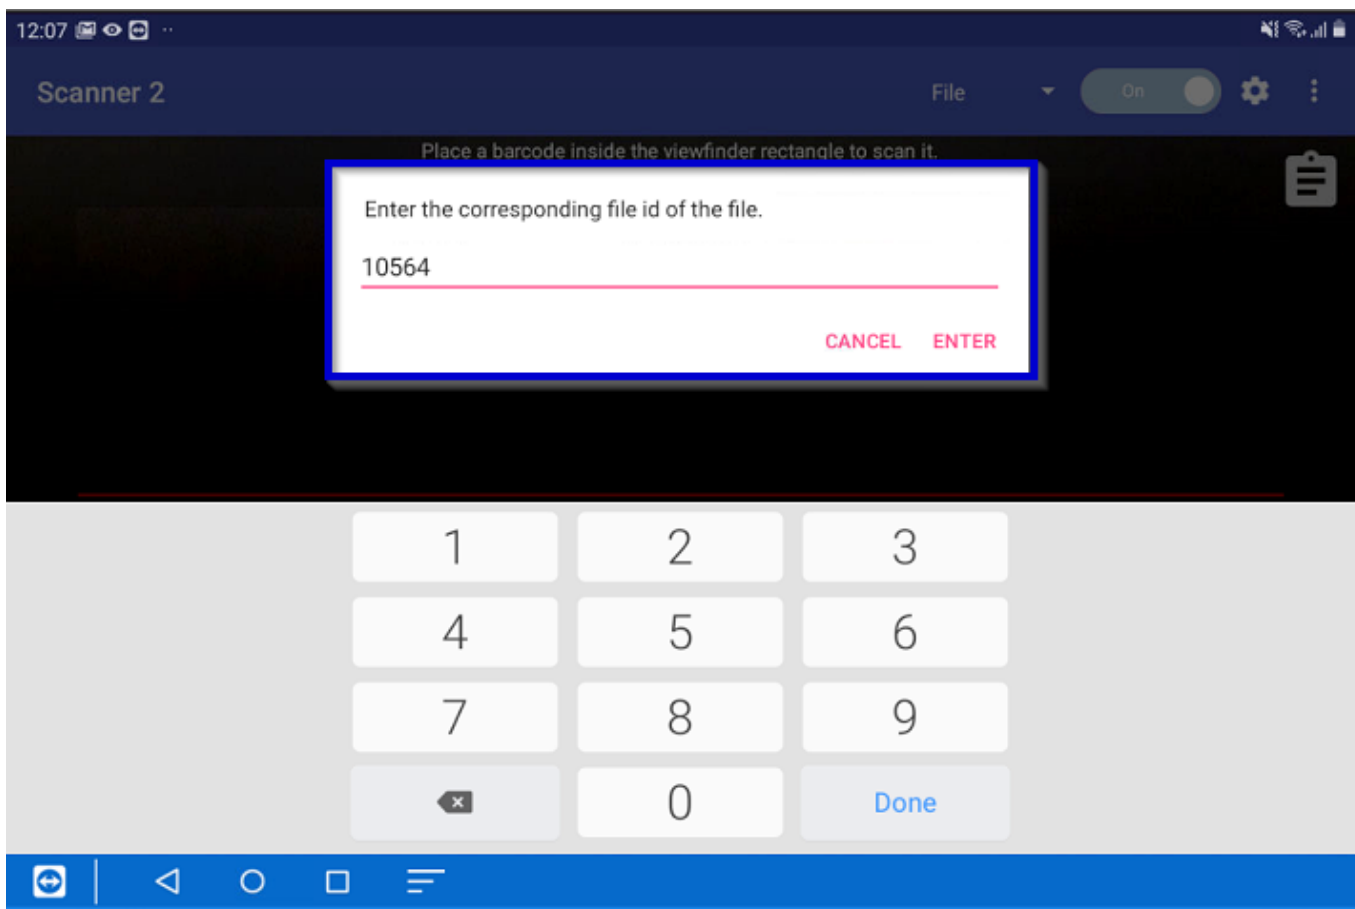

New scan app

A new application is available that makes it possible to scan articles from stock. The new application can be downloaded from insypro.com - customer area.

The screenshot shows the InSyPro website interface. At the top left is the InSyPro logo with the tagline 'INNOVATIVE SYSTEMS PROVIDER'. At the top right is a navigation menu with links for 'About us', 'Products', 'SelfServicePortal', 'Customers', 'Contact', 'Blog', and 'English'. Below the navigation is a large banner with the text 'Click on the desired product to download!'. Underneath the banner is a grid of eight application cards, each with an icon and a brief description. The 'Scan APP V2' card is highlighted with a blue border. The cards are:

- Planmanager Core**: Indispensable on any Windows PC or laptop for ease of use, security and connectivity (e.g. Informes) with PlanManager.
- Inspector 3**: The inspector application is the must have for every bodywork.
- Reception APP**: The Reception app allows you to register damaged vehicles and replacement vehicles.
- Workshop APP**: With the Workshop app you can do your time registration from your tablet.
- Scan APP**: The Scan app allows you to quickly scan the barcodes/qrcodes on your received parts for reception.
- Scan APP V2**: The Scan app allows you to quickly scan the barcodes/qrcodes on your received parts for reception.
- Albatros**: The Albatros app is the perfect mobile complement for any user of the Albatros platform.
- IRIS**: The Iris app is used by expert/inspectors to perform inspections and forward them to the IRIS platform.

Choose a file in which you want to order the stock parts.

To scan an article you can go to Job - Stock in PlanManager.

Strana 2 / 11

Now you can scan the code of the label you created in PlanManager.

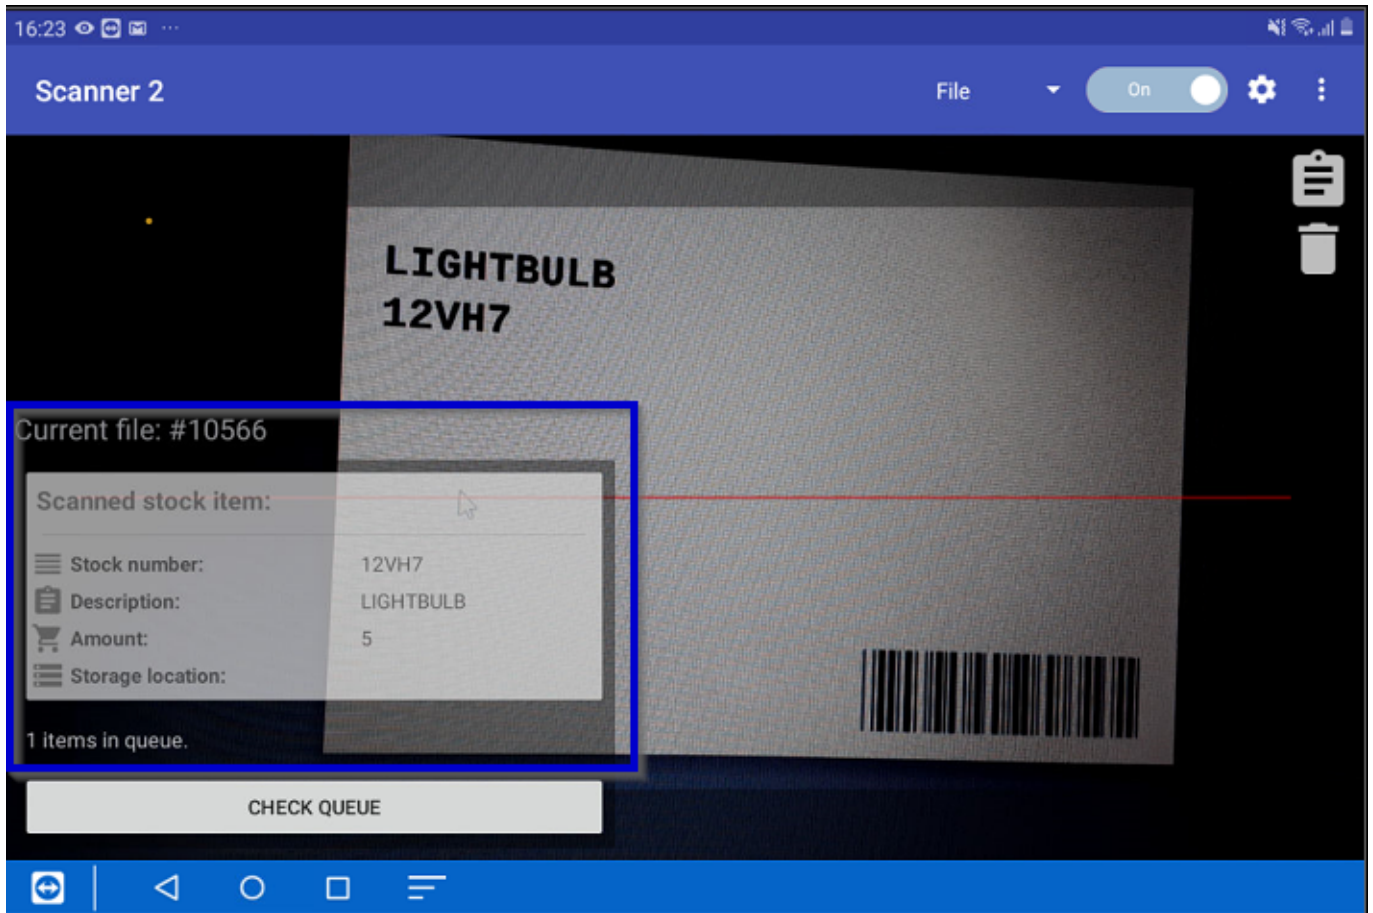

To do so, first add the job number

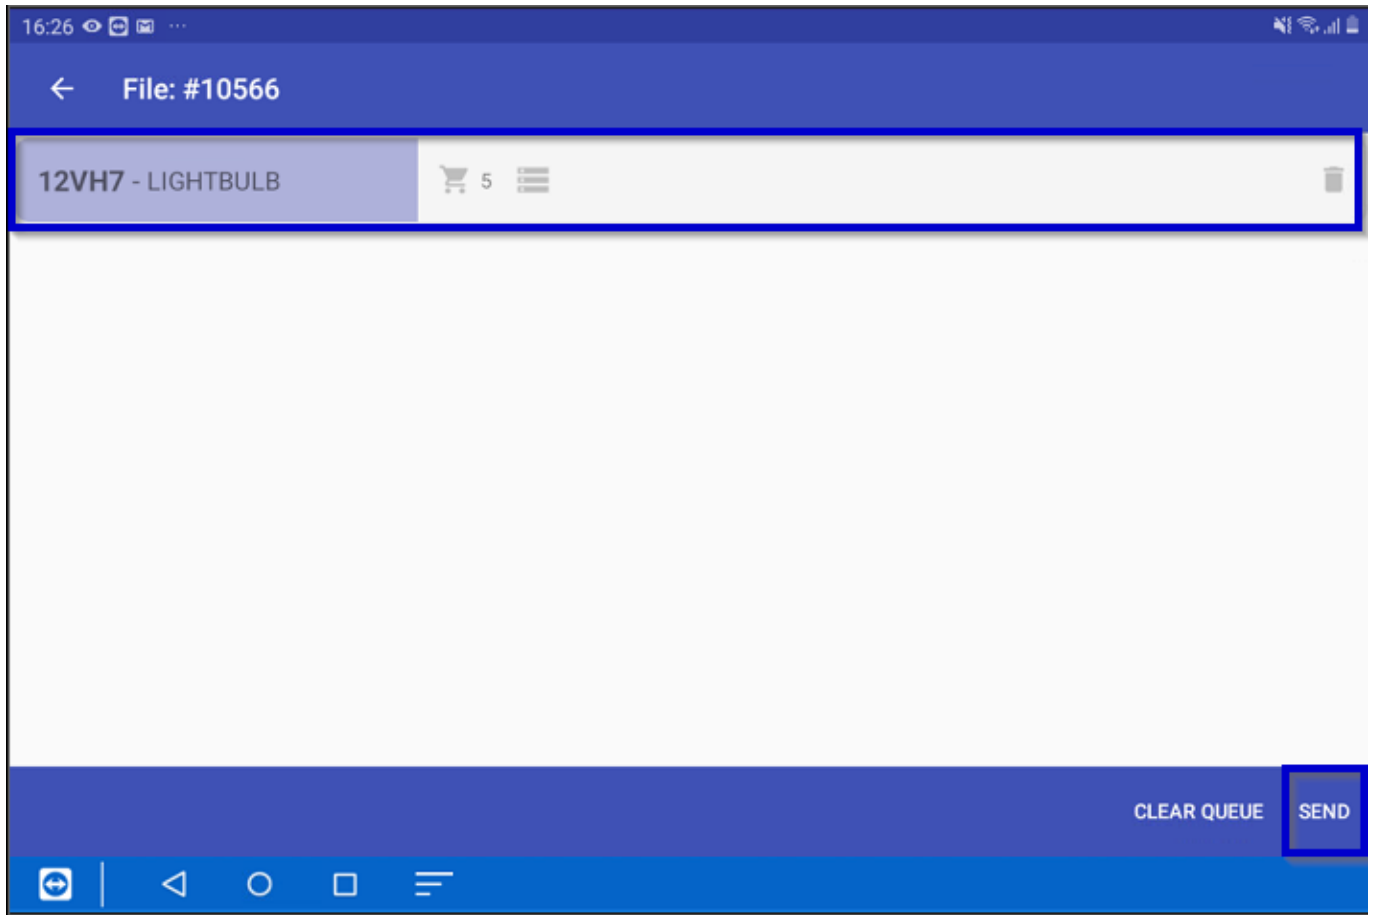

Then scan the barcode of the part(s)

Then click on the check queue button, you will see the list of the scanned parts.

If you click on the shopping cart, you can edit the amount

12VH7 - LIGHTBULB

Edit the amount of selected item?
LIGHTBULB

NO YES

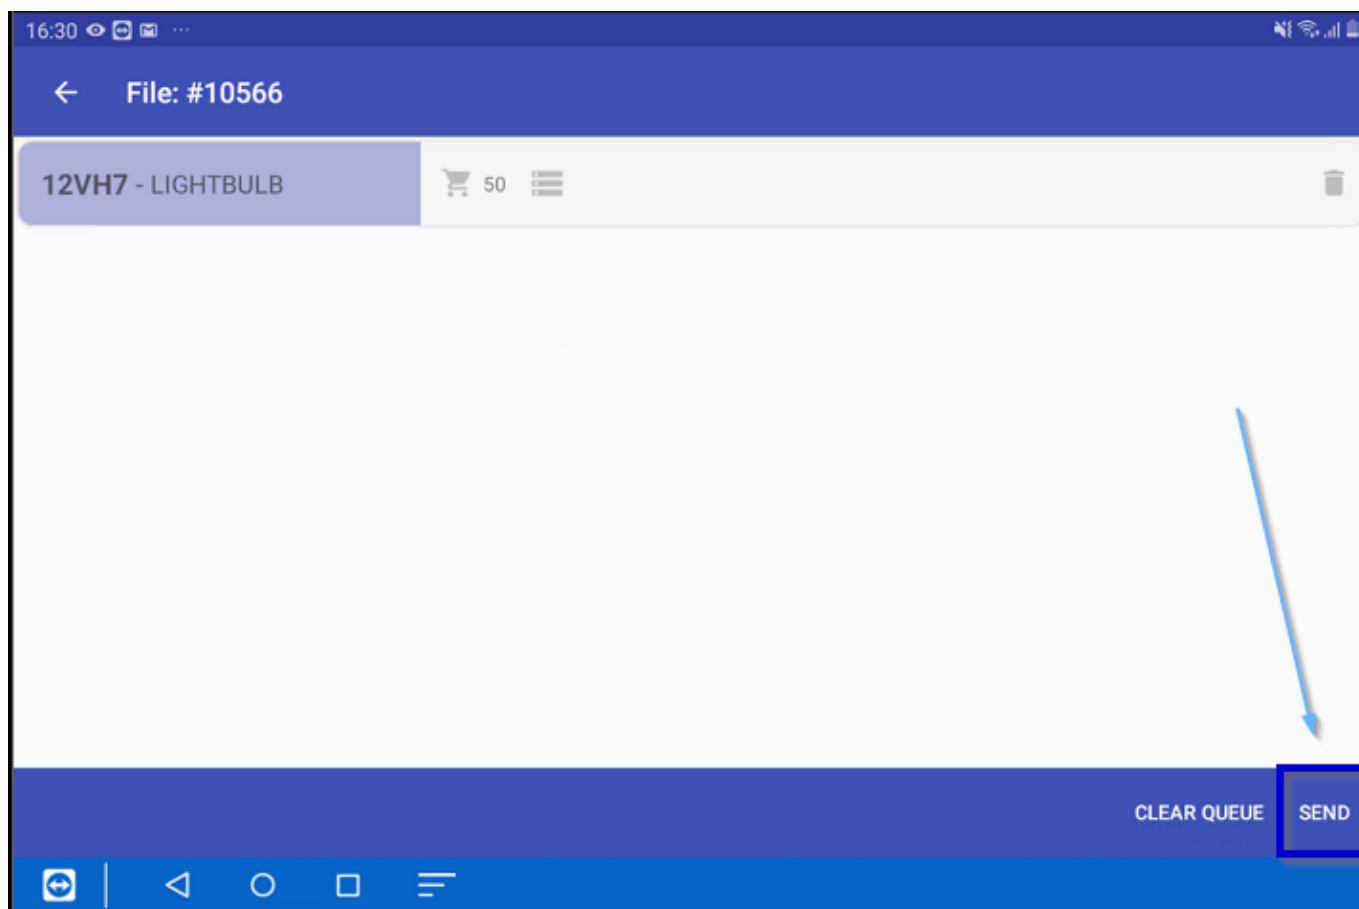

CLEAR QUEUE SEND

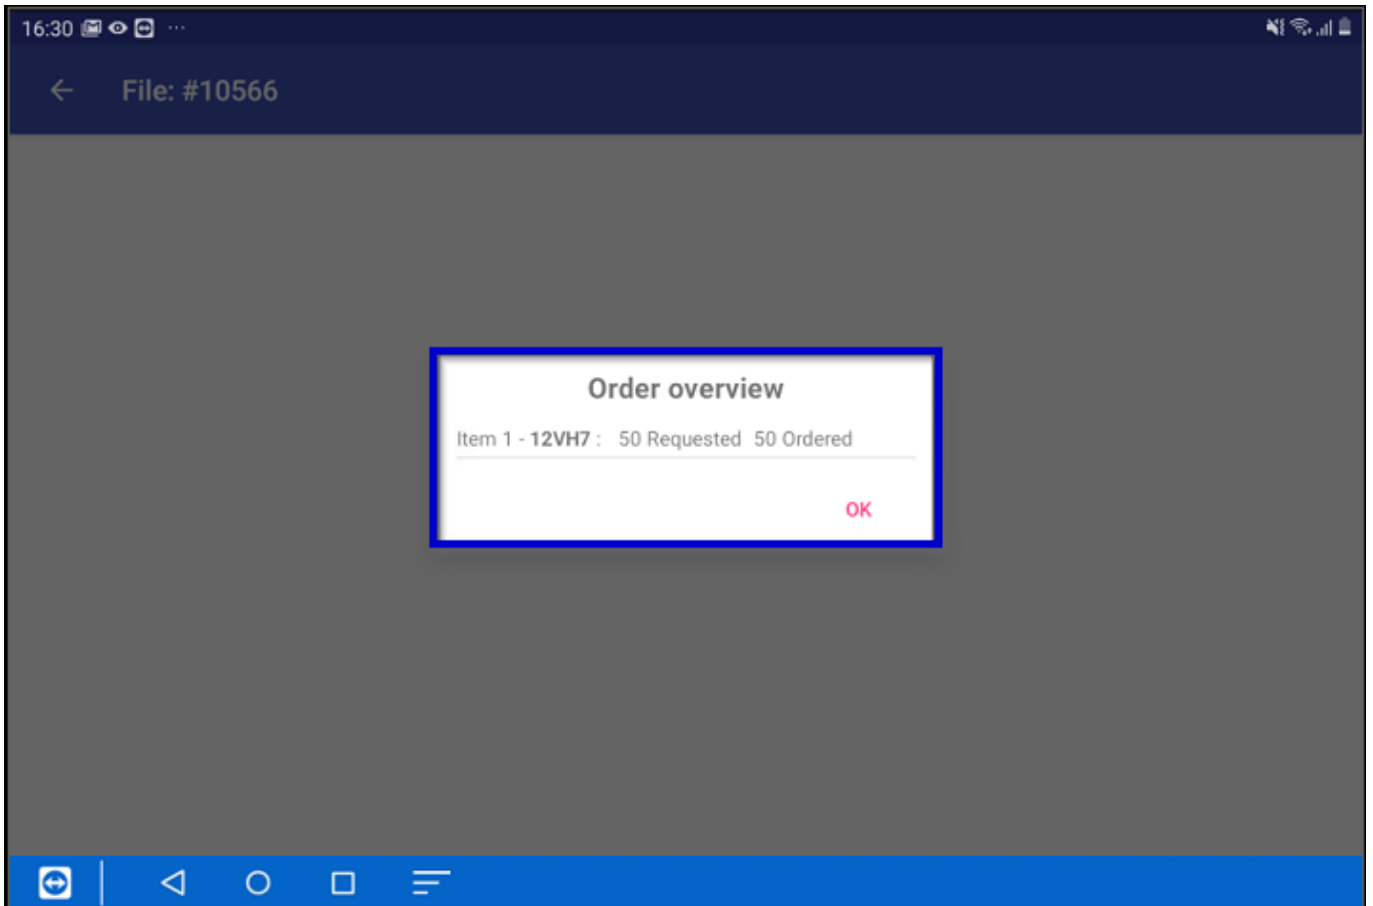

12V

After that send the items, to PlanManager

You will see a confirmation screen

And you'll find the parts in PlanManager

The screenshot shows the PlanManager interface with the following data:
