

2024 UPDATES

Here's what's new in the version 202415 - June 2024

Here's what's new in the version 202415

- There was an issue with the layout of the printed Audatex / Informex calculation in PlanManager. This has been resolved.

- For our Dutch customers: We fixed an issue regarding the SilverDat / PlanManager link.
- On the Reception application, the issue concerning the images not being saved is fixed.
- The problem that for some customers, the rental agreement did not print when clicking on "save and start rental" has been resolved.
- We also fixed the issue where the PDF of the rental agreement, invoices and other documents were not printed at all.
- The email (.msg) drag and drop functionality has now been restored on the Solera Data Center. You will once again be able to upload emails as well as pdf, .doc and jpeg files to within the job in Plan Manager.
- Also, several technical improvements have been implemented.

Unique solution ID: #4123
