To set this, go to System - Options and search:

'SEND\_USUAL\_DRIVER\_START\_REMINDER\_SMS (at the start of a reservation) or  
SEND\_USUAL\_DRIVER\_STOP\_REMINDER\_SMS (at the end of a reservation).

If this configuration is set to "always" , the usual driver will automatically get an SMS .

You will be sent a standard SMS. You can adapt this text in the screen  
Administration - Comm. Templates.

Before, an email was also sent to the usual driver at the start / cancellation /  
modification of the reservation. You can see this email in the communication screen  
in the block of the reservation. You also can change this text in the screen  
Administration - Comm. Templates.
