

# Mobile/Tablet

## General - How can I determine if my app is the latest version?

It is possible to check if the applications Inspector3, Reception and Workshop on your tablet(s) are the most recent version or not.

Active since	Last Communication	Version ^	Access To	Status
24-08-2020 12:24	12-04-2021 09:49	1903041413	workshop	Active
24-08-2020 14:20	12-04-2021 09:44	1903041413	workshop	Active
08-08-2020 14:11	08-04-2021 15:02	1904031156	workshop	Active
11-08-2020 09:09	12-04-2021 12:00	1904121109	workshop	Active
02-08-2020 12:11	20-04-2021 14:08	1904121109	workshop	Active
08-08-2020 14:11	20-04-2021 08:43	1904121109	workshop	Active

Maintenance -> Tablet -> Devices

Applications in a red coloured version number are required to be updated. If you hover on the version number you also will see what the current status is. If red, you will get the message "This is not the latest version, please update the application"

11-08-2020 09:09	1903041413	workshop	Active
08-08-2020 14:11	1904031156	workshop	Active
11-08-2020 12:11	1904121109		
08-08-2020 14:11	1904121109	workshop	Active

This is not the latest version, please update the application.

Applications in a green coloured version number are not required to be updated. If you hover on the version number you also will see what the current status is. If green, you will get the message "This is the latest version."

08-08-2020 14:11	20171010	inspector	Active
08-08-2020 14:11	1903041413	workshop	Active
08-08-2020 14:11	1901070910		Active

This is the latest version.
