

Information for firewalls and proxy servers.

Introduction

In larger companies, it is quite common to use firewalls and proxy servers to access the Internet. Below is listed the required PlanManager accesses.

Access

Do not limit your network to IP address, IP addresses changes. Domainnames do not change.

Url	Gate	
http://yourcompany.planmanager.insypro.com	80	your company unique business name that you received (eg CCPM)
https://yourcompany.planmanager.insypro.com	443	Access plan manager via SSL.
http://kdatacontainer.himalayasystems.be	80	Access to the data container that allows the storage of pictures and PDF files.
http://insypro.com	80	Our main website is used to upgrade android devices and provide remote assistance.
http://planmanager.be	80	Our main website is used to provide remote assistance.
https://www.gstatic.com	443	Display graphics: beware, gstatic also loads other domains.

Unique solution ID: #1507
