# Maintenance
Linking a supplier to a location

A new field has been added in Management - Third Parties - Suppliers. By means of this field you can indicate at which location you use this supplier. This is a multi-select field so you can link multiple locations to a particular supplier.

The advantage of this is that you can then show a certain list of suppliers per location. The users will not have to search in a list of suppliers that are not applicable for their specific location. If no location has been set, the supplier will always be presented in the order screen.

Furthermore you can now also indicate at the supplier whether a certain brand

Maintenance

should be ordered via this supplier:

Number	23
Phone	Phone
Fax	Fax
Mobile	Mobile
Email	Email
Contact	Contact
Language	select a language ⌄
Customer Type	select a client type ⌄
Type	☑ Products
	☐ Services
Makes	All ⌄
	☐ ASTON-MARTIN
	☐ AUDI
	☐ AUSTIN
	☐ AUSTIN-HEALEY
	☐ AUTO

If you enter e.g. the brand 'O' here and you have a file with the brand 'O'

Maintenance

then PlanManager will automatically suggest this supplier ('Gent Parts') in the list.
