

Maintenance

How to limit access of my staff to specific files.

In the menu Maintenance - Personnel every member of the personnel has a button "ACL" to the right. (ACL = access control list)

The screenshot shows a web application interface for managing personnel. At the top is a navigation bar with tabs: Organisation, Third Parties, Task Types, Part Types, Task Type Conversion, Standard Jobs, Comm Templates, Catalog, Tablet, Vehicle, Typemap, and Checklists. The main content area is divided into two sections: 'Personnel data' and 'Security'. The 'Personnel data' section contains fields for Lastname (TOOTS), Forename (THIELEMANS), Number (with a link to change the address), Phone (056265293), Email, Use e-mail for, Contact, Contact Phone, and Contact Email. It also has dropdown menus for Location (Bodyshop B), Usergroup (Administrator), Language (Français (BE)), and Team (select a team), along with fields for Hourly Cost (€), Date Started, and Date Stopped. The 'Security' section includes Password, Confirm Password, and a list of permissions: Login, Workshop, Planning, Notifications, Inspection, Webservice, Courtesy Car, Reception, and Logistics. Each permission has a checkbox. Below the permissions list is a button labeled 'ACL'. At the bottom right are 'Save' and 'Delete' buttons. At the bottom left are 'Read ID Card' and 'Show Identity data' buttons.

This button allows you to select which files your staff can see.

We do this by looking at the owner, sentby, repairer and location.

By default, a user has no restrictions and he / she will see all the files.

If a specific owner is designated, only files with this owner will be displayed.

If a specific sentby is designated, only files with this party will be displayed.

If a specific repairer is designated, only files with this repairer will be displayed.

If a specific location is designated, files will only be displayed to that location. Note that even in the invoicing screen only invoices are displayed with that location.
