

Maintenance

How to fill in the field labor cost / time for a task type.

Labor costs per hour can be customized by job type. Navigate to the Maintenance panel. And then visit the list of Task Types .

If you do click a Job Type you can change the field labor cost / time in the input field . For example, an employee costs the company 25 £ / hour. Then click Save.

The screenshot shows the 'Task Type Editor' interface. On the left, there is a form for editing a task type, with fields for Name (Mechanics), Code, Sequence (20), Hourly Cost (€ 60), Target Rate (€), Category (Work), and Ledger Sale (704000 Arbeidsloon). On the right, there is a table listing task types. The table has columns for Sequence, Name (en), Hourly Cost, Category, Ledger, and Time Before/After. The task type 'Mechanics' (Sequence 20) is highlighted in blue.

Sequence	Name (en)	Hourly Cost	Category	Ledger	Time Before/After
1	Klein onderhoud		Work		--- / ---
2	GROOT ONDERHOUD		Work		--- / ---
