

How does the driver list work?

The driver list window in Flotilla gives you access to all the drivers in the system. You can access it by going to Operational - Drivers.

By default, the driver list window only shows drivers that are "active". Only active drivers are available to selection in the rest of the system. Inactive drivers will be hidden but it is possible to show them again.

At the bottom of the list you will find a filter line. This allows you to search by driver name or staffnumber. If you remove the default filter in the "active" column, the system will display only inactive drivers. To filter on active drivers again, simply add the number "1" in the "active" filter column.

The screenshot shows the Flotilla software interface. At the top, there are navigation tabs: 'Operational', 'Reporting', 'Dashboard', and 'Help'. The user's name 'matthias@himalay' is visible in the top right corner. A dropdown menu is open, showing options: 'CO2Report', 'Correspondence', 'Correspondence log', 'Drivers' (highlighted), 'Export', 'Fuel Mileage corrector', 'Fuelcards', 'Import', 'Log', and 'Sync'. On the right side, there is a 'Vehicles' section with a status filter: 'Status Runni', 'Almost EOC', 'Almost EOC', and 'Running EOC'. Below this, there is a date '- 27.' and a 'Driver' link. The main part of the screenshot is a table of drivers. The table has columns: '#', 'First name', 'Name', 'Staff number', and 'Active'. The 'Active' column has a filter row with a green box around the number '1'. Below the table, there is a green plus icon and a pagination bar: 'Showing records 0 to 10 from a total of 1329 records Page 1 >'. The table data is as follows:

#	First name	Name	Staff number	Active
5	AMÉLIO	AMÉLIO	3000988	1
16	MICHEL	MICHEL	03001667	1
17	JEAN	JEAN	03001677	1
20	THOMAS	THOMAS	03001722	1
60	THOMAS	THOMAS	3002122	1
62	CHRISTOPHE	CHRISTOPHE	3002204	1
65	ERIKO	ERIKO	3002266	1
81	AUDIN	AUDIN	3002620	1
82	STEFANO	STEFANO	3002624	1
86	EMILY	EMILY	3016166	1
