

Invoicing

Invoicing with counter booking for jobs with excess and / or deductible VAT

When clicking on invoice in the job, you will see a popup, where you will be able to indicate

to whom the invoices should be made:

The screenshot displays the PlanManager software interface. A 'Create Invoices' popup is open, showing the following details:

- ☒ Main Invoice & Vat Invoice
- To: AG INSURANCE (Insurer)
- VAT To: Conner Niandoen (Owner)
- ☒ Excess Invoice 1250547
- To: Conner Niandoen (Owner)
- Button: Create Invoices

The background interface shows a job card for 'Conner Niandoen' with various fields like Owner, Driver, Insured Party, Referred By, Insurer, Engineer, Repairer, Broker, Direct payment, All Parts In, Rental Needed, Job Admin, and Financial. A red arrow points from the 'Invoice' button in the bottom right corner of the interface to the 'Create Invoices' popup.

In this case we have both, excess and deductible VAT, so 3 invoices and 2 counter bookings are generated automatically in PlanManager

First the main invoice to the insurance cy, with mention of the excess and deductible VAT:
