

# Invoicing

## Invoicing work third parties

If you go to work third parties in the job, you will see that from now on it is possible to draw up an invoice from this screen. This ensures that you have a better overview and that the invoicing can be faster.

Below you can find an example:

The screenshot shows a web application window titled 'Subcontracted'. At the top, there is a 'New' button and a list of items. The main form is titled 'Edit: test Change windshield'. It contains several input fields and buttons. The 'Supplier' field is set to 'test'. The 'Task' field is set to 'Work third party'. The 'Start date' and 'Expected delivery' are both set to '28-04-2021'. The 'Description' field contains 'Change windshield'. On the right side, there are fields for 'Estimated cost' (€ 80), 'Invoiced cost' (€ 85), 'Invoice number', 'Reinvoice amount' (€ 175), 'Estimation' (None), and 'Comments'. At the bottom, there are buttons for 'Save', 'Remove', 'Purchase Invoice', 'Sale Invoice' (circled in red), and 'Communication'.
