In order to create a new car courtesy, you need a minimum number plate (there can not be two courtesy cars with the same plate), and the name of the location if your company has multiple locations.

However it is advisable to add the maximum amount of data (make, model, fuel type, box ...) to your courtesy car to the best use of the system. By clicking \mapsto Show more details you can add additional information concerning the car.

Once you complete all the data, click the "Save" button

Delete a courtesy car

when you do not use a Courtesy Car, it must be assumed that we should not remove it from the program.

You just make it inactive, For if a traffic fine reaches you 2 months later, you have to find this vehicle and who was driving it.

To make a courtesy car inactive, click the tab "Car Fleet" - "Courtesy Car" and click on the vehicle you want to make inactive (you also have the option to enter data into the filter on the left of screen to find the correct vehicle directly).

Then click the button "Show more details"

Then click "Change vehicle to INACTIVE" then click "Save."

Top of the screen "Courtesy Cars"

On the top of the screen you will find the latest rentals, with a timeline to easily find the driver during a certain period. You will also be able to check the images concerning that rental.

Items to check

You can put a list of items to check in PlanManager, either on the start or the end of the rental, or both. To do so click on \mapsto Click here to show the items to check that are present in the car. You will get a list where you can choose which items to check.
