

Planning

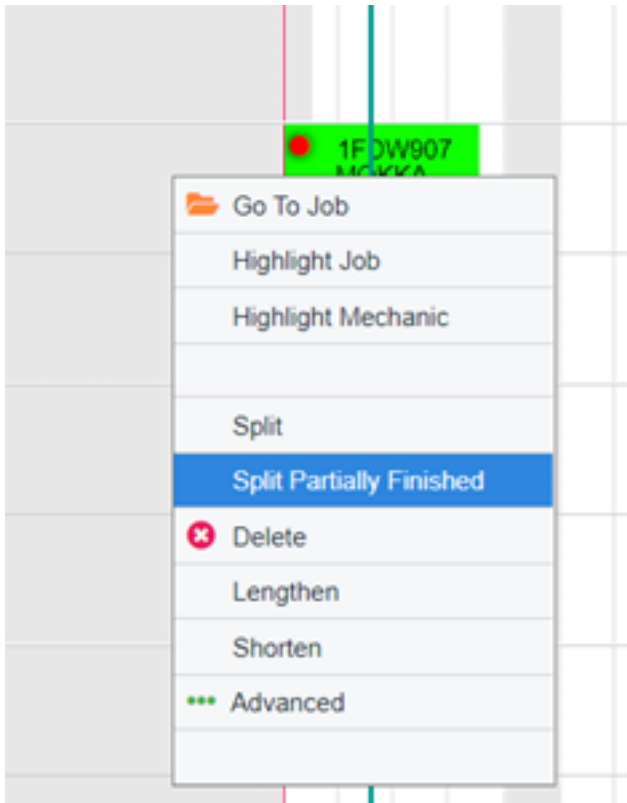

Split function planning

An adjustment has been made to the split function in PlanManager. From now on, when splitting a task, the time already worked on it will be taken into account.

The image shows a dialog box titled "Split Partially Finished" with a close button (X) in the top right corner. The main text inside the dialog reads: "4 minutes have already been performed on this task. 211 minutes still remain. How many minutes does the new part need to be?". Below this text is a text input field. At the bottom of the dialog are two buttons: "Cancel" and "Ok".
